

# Mystery Missing Flower Parts

Directions: Read the clues below to figure out the part of the flower that is missing.

1. If this sticky part was missing there would be nothing to trap the pollen. \_\_\_\_\_
2. If this female part was missing from the flower there would be nothing to turn into fruit.  
\_\_\_\_\_
3. An absence of this would make flowers less messy and there would be nothing for bees to transport. \_\_\_\_\_
4. Fruit would not have seeds if this part of the flower was missing. \_\_\_\_\_
5. A flower would be imperfect if it had a stamen but was missing this. \_\_\_\_\_
6. Pollen would not be able to get down to the ovary with out this female part \_\_\_\_\_
7. The anther and the filament make up this missing part \_\_\_\_\_
8. There would be no pollen if this part was missing since it produces and stores pollen.  
\_\_\_\_\_

# Mystery Missing Flower Parts
